

ARWall

will allow you to see the real size
and
Important design elements

**WITHOUT
DOWNLOADING
MOBILE APPS!**

How it works?

1

Scanning the QR on the box

2

Look at the picture through the camera

СМОТРЕТЬ ВИДЕО НА
YOUTUBE

<https://www.youtube.com/watch?v=raEFKNJ4DiQ&feature=youtu.be>

3

virtual button MIX instant transition to the purchase of new models of designers

Mix

Advantages

For the buyer

1. Parents and children can see in volume, in full size what they are buying. Important elements, composition, characteristics of the constructor
2. Functioning and interaction of various elements of the constructor! An animated picture in action will show all the possibilities of interaction with a specific set!
3. During the assembly, use the virtual original as a visual aid.
4. After the assembly - through the - MIX button - select a new combined constructor in the context of the already created one

For the manufacturer

Modern innovative communication with customers.

Customer feedback using a virtual button = Feedback.

The simplest and most convenient technical solutions for buyers and sellers. QR code allows you to instantly open an augmented reality in any browser without downloading any mobile applications.
